

HUMANE SOCIETY
CENTRAL TEXAS

PRESS RELEASE

March 16, 2020

The Humane Society of Central Texas is urgently requesting foster homes that can keep pets for up to 6 weeks. The goal is to increase our foster base by 60 families in case the Waco Animal Shelter is forced to close to the public in response to the CORVID-19 pandemic. As a foster home, you provide the home, the food, and the love, and we take care of medical expenses for the animal. Some of our animals only need to be fostered for a few days while they await surgery while others need more time to decompress from the stress of shelter life. For every animal you foster, you save two lives: the life of the animal you foster, and the life of the one who now has space to come into the shelter. Please be a Waco Animal Hero and foster a pet today by contacting our Foster Coordinator Jenny at JennyL@hsctx.org or at 254-754-1454. She will match you with the pet that best suits your home and lifestyle because we believe that every Waco dog deserves a chance!

For more information about this press release, please contact Dr. Paula Rivadeneira, Executive Director of the Humane Society of Central Texas, paular@hsctx.org, cell 254-447-0368.
